Responsible sourcing and production

All products are produced in a responsible way and comply with the requirements under European laws and regulations. Choosing more sustainable materials has been an essential factor during the development of this new collection.

People

Social responsibility

During production and printing we focus on creating a safe and positive working environment. All items are well-constructed, tested and produced with compliant and safe materials.

Planet

Sustainable solutions and sustainable printing

By strongly reducing the use of virgin plastic and rethinking the most efficient way to pack the goods, both individually and for onward distribution shipment, we can reduce waste and influence our environmental footprint. Our printing process requires the safe use of all production inputs, such as chemicals and the control of all production outputs and emissions.
